

ElectNOW™ Rental Program

All the Advantages, None of the Hassles

ElectNOW™ offers a unique option for cities, unions, schools, public law, utility districts, businesses and many other organizations to administer an end-to-end election solution. Traditional state and county level elections require large, up-front capital expenditures for voting equipment followed with on-going regular investments in support services. This versatile solution provides a complete election package without the large up-front expenditures and maintenance fees. At ES&S, customization is standard, so our rental programs are completely scalable to fit your needs. Designing a rental program specifically for you, is what we do best.

experience.
reliability.
security.
innovation.
